

Stop Waiting. Start Hiring.

The #1 recognized brand in rapid oral fluid drug testing¹

OralTox® with OT-Scan® delivers accurate, rapid, paperless results—helping employers hire faster, smarter, and safer.

The FDA 510(k)-cleared OralTox® device provides fast, reliable results trusted by leading employers. When paired with OT-Scan®, our secure mobile app, it transforms the drug testing process—accelerating hiring, reducing risk, and improving workplace safety.

An innovator in rapid diagnostics for nearly 20 years, Premier Biotech partners with Fortune 500 employers, healthcare providers, and government agencies to deliver best-in-class solutions supported by our CAP-accredited forensic and SAMHSA-certified laboratories and our hands-on customer success team.

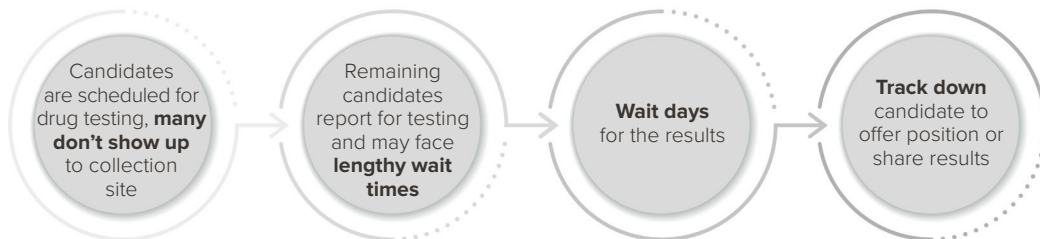

¹According to the Current Consulting Group's 27th Annual Drug Testing Industry Survey

The Challenge: Traditional Lab Testing

Traditional lab testing can take days—driving up costs and causing drop-off before candidates even start work. Scheduling, travel, and paperwork all create unnecessary delays and compliance risk.

Multi-Day Workflow of Traditional Lab-Based Drug Testing

Job offers are delayed by multiple days, increasing candidate drop-off and wasting recruitment time and budget.

The Solution: Hire Using OralTox and OT-Scan

OralTox® + OT-Scan® deliver rapid, reliable results—with ~95% cleared same day. Test on-site with automated interpretation and seamless lab confirmation for an unmatched combination of speed, accuracy, and convenience.

Results in Minutes with OralTox® + OT-Scan®

~95% of candidates can be hired immediately. For any non-negative results, just send the original OralTox® sample to our in-house lab for quick confirmation testing.

Case Study: ROI of OralTox

One OralTox® and OT-Scan® customer is a major employer with 20,000 annual hires. Compared to traditional lab-based urine drug testing, this company saved:

- **Time:** Cut time-to-hire by 5 days
- **Money:** Saved \$15 per test, totaling \$300k annually
- **Candidates:** Mitigated 20% drop-off caused by candidates taking other jobs while waiting for test results
- **Headache:** Received 75% fewer candidate complaints

This customer saved

\$760,000

that was previously spent on candidates who never made it to their first day of work.

“Oral [fluid] testing on-site creates a better candidate experience because individuals can complete the test immediately at our office and potentially start work the next day.”
